**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Patel (US 6,484,521) in view of Morris (US Patent No. 5,393,348). Patel discloses a spray cooling with local control of nozzles and comprising: chips (101) mounted on a printed circuit board (17), a spray head (105) with incremental sprayers and spray chambers (107). Patel lacks a plurality of actuator position and configured to actuate the actuator. However, Morris teaches a plurality lateral located actuators (26) used in spray coating. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have modified the disclosed invention of Patel with actuators as taught by Morris for controlling the delivery of fluid from a spray head.

### ***Allowable Subject Matter***

Claims 17-49 allowed over the prior art of record.

Claims 2-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed 02/21/2006 have been fully considered but they are not persuasive. Applicant claims a delivery system, however never positively claim delivering cooling fluid (states in line 1, for delivering cooling fluid), one or ordinary skill or common sense would be able to utilize the teaching of Morris thereby as claimed in the prior art – to deliver a liquid fluid to a board; from plurality lateral located actuators (26). These said actuators are capable of delivering inherently any liquid fluid (a liquid fluid for coating or liquid refrigerant for cooling). Morris, furthermore teaches a spraying apparatus (100) and spray guns (23).

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
